Art Unit: 1745

MULTI-CELL BATTERY CHARGE CONTROL

Examiner: Yuan S.N. 10/685,473 Art Unit: 1745 February 23, 2007

Continued Examination Under 37 CFR 1.114

- 1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 11, 2006 has been entered. Claims 1,4 were amended. Claims 19-23 were canceled. Claims 39-47 were added. The specification was amended.
- 2. The text of those sections of Title 35, U.S.C. code not included in this action can be found in the prior Office Action issued on September 12, 2006.

Claim Rejections

3. The claim rejections under 35 U.S.C. 112, first paragraph, on claims 1-17,33-38 are withdrawn because the independent claim 1 has been amended.

Reasons for Allowance

4. Claims 1-17,33-47 are allowed. The invention of independent claim 1 recites an electrochemical battery comprising a stack of individually sealed bipolar wafer cells, the cells being of a chemistry that generates gas in over charge and/or over discharge, each cell being

Application/Control Number: 10/685,473

Art Unit: 1745

sealed in an envelope having an area to expand in thickness in response to pressure generated within the respective cell and containing a spacer providing the cell with an uniform thickness in an expanded state, and a pressure sensor responsive to a force transmitted through the stack via the expandable areas of the cells. The closest prior art of record, Okumura and Fredriksson, does not teach an electrochemical battery comprising cells being sealed in an envelope having an area to expand in thickness in response to pressure generated within the respective cell and containing a spacer providing the cell with a uniform thickness in an unexpanded state as stated in the claim.
